

### PHILIPPINE ISLANDS

Practice set-in seams and matching corners with *Philippine Islands*, a challenging design originally published by *Hearth and Home*, a mail-order pattern company that operated from 1895 through 1930. Heavy starch and careful handling will help prevent the bias edges from stretching during the block's construction.

After piecing the A/B and C/D/E sections, join them, setting in the corners. When 2 halves of the block are complete, join them in the center making sure to match all the seams and press the seams open. 

Make sure your printer is set to 100% "no scaling" before you print your pattern.
